

LMI Training ? S 1 LMI Mentoring Session

2 Days

ECSA / POE Completion

www.skyjacks.co.za

We are
WACO

Receive coaching by a Reg LMI in the practice involved with correct inspection and safe compliant load testing of the required Lifting Machines.

What can I expect during this Session/s?

Bring yourself and find everything else you need to become a registered LMI waiting for you. We will help you to identify your educational gaps and other specific training needs required during the mentoring session which will also include a goal orientated pre-assessment against Unit Standard SAQA 58496.

Who will be presenting the Course?

At OJ Lifting Consultants we can assist you "in-house" with LTI Competence training and the more specific training required will be referred to a Registered Training Provider. The OJ Mentor will be of assistance by guiding you to attend the correct modules and help you to demonstrate the required competence when applying for your selected LMI category.

What ECSA Cats can we legally mentor on?

The following categories can be mentored in-house:

- | | |
|----------------------------------|----------------------|
| - Lifting Tackle | - SANS 2972 |
| - Hoists – Rope & Chain | - Various |
| - Hoists – Man, Air & Electric | - SANS 500/SANS 1639 |
| - Forklifts | - SANS 10388 |
| - Mobile Cranes | - SANS 19 |
| - Hydraul Indust Lifting Devices | - Various |
| - Overhead Cranes | - SANS 10375 |
| - Vehicle Hoists / Car Lifts | - SANS 71 |
| - Under the Hook Attachments | - SANS 687 |

What items you receive from the Sessions?

During the informal session you will be able to ask the required questions and be given personal guidance to complete the POE with more confidence and accuracy. The following long term documents will be explained and could be tailored to suit your future internal and external testing task needs.

- ECSA Application & Code of Conducts
- Required SANS Standards – List of Standards Only
- OHS Act – DMR 18:2015
- Site Selection & Establishment
- Specific Risk Assessment/s Templates
- Inspection and Load Test Procedures – Assistance
- SANS Compliant Certificate/s Templates for any category

Will I be found competent?

Join us for a tough brain storming session and gain a competitive edge on the other LMI candidates burning the midnight oil attempting to complete the professional assessment document. It will not be easy and you will still have to complete the questions in your own words following the attendance, but with the clear understanding gained from attending this session you will have no excuse to not follow this through until you ultimately receive your LMI number.
